SUMMARY

B.Tech graduate in **AI & Data Science** (CGPA: 8.46) with hands-on experience in **Java Full Stack Development, Machine Learning, and Generative AI**. Built AI-powered applications, RESTful APIs, and LLM-based solutions using **Java, Python, Spring Boot, React, TensorFlow, LangChain, FAISS, and Docker**. Currently a **Java Full Stack Developer Intern** at **Zensar Technologies**, developing a microservice-based OLX platform using Spring Boot, Eureka, API Gateway, JWT, and React. Lead author of a **Springer Nature** research paper on quantum machine learning and **Microsoft Azure AI-900** certified.

SKILLS

Languages: Python, Java, SQL, C/C++

Frameworks: Spring Boot, FastAPI, React, Flask, Django, HTML, CSS, JavaScript

Machine Learning & Deep Learning: TensorFlow, OpenCV, scikit-learn, NumPy, Pandas, Computer Vision, NLP, Feature Engineering, Model Evaluation, Statistical Analysis, EDA

Generative AI: LLMs, Prompt Engineering, RAG, Embeddings, FAISS, LangChain, Multi-Agent Systems

Tools & Platforms: Docker, Git, MLflow, DVC, CI/CD, pytest, MySQL, Streamlit, Google Gemini API

EDUCATION

AISSMS Institute of Information Technology

Oct 2023 – May 2026

B.Tech in Artificial Intelligence & Data Science (CGPA: 8.46)

Pune, India

Jayawantrao Sawant Polytechnic

Aug 2020 – May 2023

Diploma in Computer Technology (Percentage: 85%)

Pune, India

EXPERIENCE

Java Full Stack Developer Intern | Zensar Technologies

Apr 2026 – Present

- Developed **RESTful APIs** using **Java** and **Spring Boot** for a microservice-based application, ensuring secure and scalable backend services.
- Built and maintained **full-stack web modules** using **Spring Boot, React, HTML, CSS, and JavaScript**, while resolving application issues and improving user experience.
- Collaborated in an **Agile** development environment, contributing to feature implementation, debugging, testing, and technical documentation.

PUBLICATIONS

Bell-Decomposition Quantum Kernels: A Multi-Scale Benchmark on Earth Observation

2025

Lead Author | Under Review, Quantum Machine Intelligence (Springer Nature)

- Proposed a novel quantum kernel family for Earth observation and benchmarked its performance on satellite imagery and standard machine learning datasets.

Fake News Detection via Multi-Feature NLP and Speaker Credibility

2024

Author | Submitted

- Developed an XGBoost-based fake news detection model using TF-IDF, NLP features, sentiment analysis, and speaker credibility scoring.

PROJECTS

OLX Advertisement Application | *Java, Spring Boot, React, MySQL, Eureka, API Gateway*

Jun 2026

- Developed a **microservice-based OLX platform** with secure JWT authentication and CRUD operations.
- Integrated **Eureka**, API Gateway, MySQL, Swagger, and REST APIs for scalable service communication.
- Built a responsive **React frontend** and implemented token-based authorization for secure frontend-backend integration.

Local Code Assistant | *Python, PyTorch, Hugging Face, Streamlit*

Dec 2025

- Fine-tuned **CodeGen-350M** on CodeAlpaca-20K, achieving **70%** code generation accuracy.
- Implemented **dual-mode inference** with local execution and cloud fallback using OpenRouter APIs.
- Developed a **Streamlit-based interface** for real-time AI-assisted code generation with optimized model loading.

Internship Recommendation Engine | *Python, Flask, ML, HTML, CSS*

Aug 2025

- Built an AI-powered recommendation system for the **PM Internship Scheme** using TF-IDF.
- Developed **Flask REST APIs** and integrated them with a web application for personalized recommendations.
- Ranked **200+ internship listings** based on user skills, education, and location to improve recommendation accuracy.

CERTIFICATIONS

- Microsoft Azure AI Fundamentals (AI-900)** – Microsoft (Certified)
- Oracle Cloud Infrastructure 2025 Data Science Professional** – Oracle (Certified)
- Deep Certificate in Python Programming** – MKCL (120 Hours, Score: 99/100, Credit Level: 4.5)
